

Right now, I'm hearing that leaders are finding it all a bit challenging. Constant change, lockdowns, online meetings, less connection, extreme busyness. For some fatigue is becoming burnout. Teams are less engaged and feeling demotivated. Productivity and performance are plateauing or declining. It all seems a bit endless. And yet you must continue to lead. Your people need you. If only you had the energy, the focus, and the inspiration to activate yourself and them.

Don't wait for the light at the end of the tunnel. Lay your own tracks to the future you want for yourself and your team.

Are you:

- ✓ Feeling flat and low energy?
- ✓ Sick of being reactive & feeling like you have no control?
- ✓ Is your team struggling with endless lockdown, changing conditions, and the challenges of balancing home life and work life?
- ✓ Are your meetings ineffective with too much screen time, not enough connection, and limited outcomes?
- ✓ Or maybe you feel like you're asking more than your team can give right now, and you're not a hundred percent sure how to support them.

When working with leaders and their teams recently, what I've noticed is missing right now is:

- Getting traction, making progress on the things that are important
- Clarity about the context and focus for the short and long term
- Time to think and plan
- A comfortable virtual presence. Feeling confident, connected, and credible online
- Engaging, interactive meetings that generate clear outcomes
- Strong team engagement, motivation, and connection

## At the end of the ACTIVATE Executive Coaching program you will have:

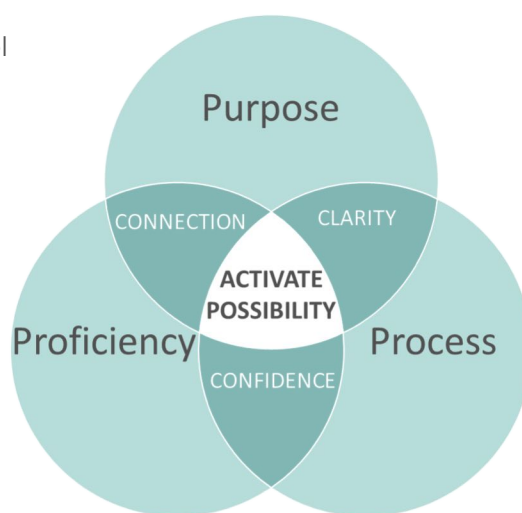

- Clarity about the context and focus for the coming period
- The opportunity to increase traction across your team and deliverables
- Created your own permission to be strategic, not simply reactive
- Elevated your virtual presence and be more confident online
- Know how to keep your team engaged, focused, and motivated online
- Increased your proficiency to produce effective online meetings and sessions that engage and deliver the outcomes
- Feel in control of your online meetings and presentations.
- Feel energised, inspired, motivated and focused.

*I recently completed Stacey's group leadership program. It has been far the best leadership coaching program that I have encountered. Stacey's approach is logical, considered and highly effective. I have so many tools in my tool box now and feeling positive about dealing with my leadership challenges. I would highly recommend connecting with Stacey and joining one of her programs. You won't regret it*
